TRANSMITTAL OF FINAL DELISTING ADDENDUM REPORT AND REVISED APPENDIX J -
DJH-10-89

Dear Major Shelley:

Attached for your transmittal to the Environmental Protection Agency Office of Solid Waste are six copies of the final NCBC delisting petition addendum report. Also included are six copies of the revised Appendix J to the original petition. Three copies of each document should be sent to EPA/OSW. (EPA will send one of those to Gwen DuPoix, SAIC.) One copy should be sent to Mr. Leo Romanowski, EPA Region IV. The remaining two copies are for your use.

A revised Appendix J was necessary because the Quality Assurance Plan for Twin Cities Testing was inadvertently omitted from the original petition appendices.

The inside cover of each enclosed document contains control copy information. As you distribute these documents, please record the control copy number and the person's name to whom you give this document and return that information to me at your convenience. This will greatly assist us in providing accurate and complete information if future changes are necessary.

Also attached for your convenience are draft letters that you may wish to use when transmitting these documents to the EPA.

As C. E. Friedrich may have informed you, I have accepted a new position within EG&G Idaho. To ensure project continuity, however, I have made arrangements to continue work on the delisting process as necessary. I am sincerely committed to carrying this project to completion.
